

# Adjustable Twin Wall Light MR16 Nickel

Data Sheet

## Physical Specification

|                       |                                                 |
|-----------------------|-------------------------------------------------|
| Body                  | Quality corrosion resistant brass construction. |
| Lens                  | Clear tempered glass.                           |
| Mounting Options      | Surface wall mounted.                           |
| Weight (kg)           | 2.2                                             |
| Operating Temperature | -20°C to +50°C                                  |
| IP Rating             | IP65                                            |

## Electrical Specification and Performance

|                     |                                                                                   |
|---------------------|-----------------------------------------------------------------------------------|
| Input Voltage       | 12-24V AC/DC                                                                      |
| Total Load          | 2 x 7 watts (maximum). Lamp not included.                                         |
| Remote Power Supply | Ensure remote ELV power supply and lamp match before use (sold separately).       |
| Control             | Requires clean on/off signal. If switching via automation relays use on/off.      |
| Certifications      |  |

## Finishes

|       |                        |
|-------|------------------------|
| ■ BLK | Matt Black powder coat |
| ■ BZE | Bronze                 |
| ■ COP | Copper                 |
| ■ NKL | Nickel                 |

## Installation Instructions

Surface wall mounted.  
Refer to Product Page or Technical Resources page to download Installation Sheet.

## Standard or Custom Configurations

Standard range - locally stocked item  
Designed to suit a variety of residential and landscaping applications the Standard range is readily available from your local Distributor. To identify your unique ordering code simply add your chosen finish to the end of the code matrix as shown below.
